

## PRX-T33

### Post Care Instructions

#### Day 1

Apply generous amount of WiQo Moisturizing Face Cream for Dry Skin at night or earlier to help with dryness. The amount should be fingerprint size (not pea size) and be massaged into the skin until absorbed.

#### Day 2 and Beyond

AM: Apply WiQo Moisturizing Face Cream for Dry Skin & SPF 40+

PM: Apply WiQo Facial Smoothing Fluid, wait 30 minutes and apply WiQo Moisturizing Face Cream for Dry Skin

Do not use any other products during your course of treatment.

Gentle cleanser, SPF and makeup is acceptable.

You may resume your regular skincare regime 7 days after your last session

#### Possible Side Effects

Intense flaking of the skin can occur after the first session of PRX-T33 application on patients with a very thick stratum corneum. It may last 2-3 days.

To help with the flaking,

please apply WiQo Moisturizing Face Cream for Dry Skin several times a day.

To help with the dryness,

please apply WiQo Moisturizing Face Cream for Dry Skin more frequently.

Appearance of darker patches in the two days following PRX-T33 application, these are thicker areas of skin drying up and will disappear through natural exfoliation in a few days.

*Contact your provider if you experience any uncommon side effects*
